

██████████

All Resident Ratepayers of the Rural Municipality of Bengough No. 40

**Re: Dust Suppressant**

This program will be available again this year and the ratepayer will be responsible for 100% of the cost of the preparation, application and maintenance.

I have included the requirements for site preparation that need to be completed in advance of the application. Also included is an approximate cost per yard site. Please take note of the width of road being used in the example as the cost will increase on our wider roads. Last year the highest invoice was \$1,347.66 with the lowest being \$967.02. The main differences in the invoice amounts are width of road and use of the water truck.

The Municipality will provide the tight blading services and this will be invoiced to the ratepayer at the custom work rate of \$200.00/hour. Last year the Municipality rented a water truck and this option will be available again this year. The cost of rent is split between all sites that use its services.

Once a list of interested ratepayers has been compiled the Division Councillor will be in touch with each individual to ensure the sites are staked to the ratepayers' choice.

If you would like to have dust suppressant applied in front of your yard site please contact the Office at 306-268-2055 or by e-mail at [rm40@sasktel.net](mailto:rm40@sasktel.net) prior to **April 14, 2023** to be placed on the list. You **MUST** contact the office to ensure your yard is on the list. If you received the service last year it will NOT be assumed that you want the service again this year.

Should you have any other questions please contact the office and I will do my best to answer them, or find out the answer to them.

Sincerely,  
*Lara Hazen*
